PROFILE

Political Economy MSc graduate (University of Amsterdam, conferred June 2026) working where EU regulation meets commercial and institutional decision-making. Four years of applied regulatory analysis across the AI Act, DSA, GDPR, CSRD, CSDDD and EUDR, built at the [UN Global Compact](#) in New York, [Egmont](#) in Brussels and the UvA [Responsible Business Conduct Lab](#), alongside eighteen months of direct client ownership in a B2B financial-operations role. Quantitative training in applied econometrics (Stata, R, SPSS) with Power BI and advanced Excel reporting; certified in AI governance by Saïd Business School, University of Oxford. Native Italian and French, C2 English, C1 German and working Dutch, for delivery across EU markets. Available from September 2026.

PROFESSIONAL EXPERIENCE

Policy and Advocacy Intern, Leadership and Policy Advocacy

Jul 2025 - Oct 2025

[United Nations Global Compact \(UNGC\)](#), New York City, United States

- Contributed substantive content to two publications launched at the UN General Assembly, the [2025 CEO Study](#) with Accenture and [Gen AI for the Global Goals](#), distributed across a network of 20,000+ companies in 160+ countries.
- Translated dense regulatory and governance frameworks into concise briefs and concept notes for C-suite and UN audiences under short turnarounds during UNGA High-Level Week.
- Prepared the briefing material framing the [UN Private Sector Forum](#) (150 senior leaders, including around 50 global CEOs) and the [Dilemmas Forum](#) (60 executives).
- Built Power BI dashboards and a centralised mandate-tracking database, standardising cross-departmental reporting and improving data quality for decision-makers.

Accounts Analyst, promoted to Client Responsible

Oct 2023 - Mar 2025

[TKB \(Trust Krediet Beheer\)](#), Amsterdam, Netherlands

- Owned a portfolio of 20+ international B2B corporate accounts across the Dutch, Belgian, French, German and Italian markets, acting as primary point of contact through the full client lifecycle.
- Negotiated payment and settlement arrangements directly with corporate clients and their advisers, reducing outstanding balances materially across the account base.
- Held 100% on-time reporting and zero missed service-level commitments over 18 consecutive months by designing standardised tracking and escalation workflows in Excel and CRM/ERP systems.
- Supervised a team of three, setting workflow ownership and quality standards, and produced portfolio reporting used by senior management.

Research and Communications Intern

Sep 2024 - Jan 2025

[EGMONT, Royal Institute for International Relations](#), Brussels, Belgium

- Monitored EU regulatory and inter-institutional files and synthesised them into briefings for diplomats, parliamentarians and journalists, under institutional review.
- Coordinated analytical output across five institutional units and served as a point of contact for 50+ external stakeholders, working transversally without hierarchical authority.
- Ran 40+ editions of two EU policy newsletters, [European Affairs](#) and [EU in the World](#) (6,100 and 6,700 subscribers), contributing to an engagement uplift of around 20% across web and social channels.
- Proposed and launched the [Global Affairs Unpacked](#) podcast, adding a new institutional media channel.

Junior Researcher, Regulatory and Comparative Policy Analysis

Mar 2024 - Jul 2024

[University of Amsterdam, Responsible Business Conduct Lab \(RBC-Lab\)](#), Amsterdam, Netherlands

- Designed a coding framework to compare regulatory instruments across 10+ jurisdictions (GDPR, CSRD and AI Act provisions), mapping compliance obligations and identifying implementation gaps.
- Analysed regulatory and firm-level data in Stata, R and SPSS, translating results into structured briefs and [position papers](#) for policy and practitioner audiences.
- Assessed corporate due-diligence and supply-chain obligations (CSDDD, EUDR) against actual firm disclosure practice.

Live Operations Specialist, Italian Market

May 2021 - Jan 2023

[Just Eat Takeaway](#), Amsterdam, Netherlands

- Ran live operational workflow and KPI monitoring for the Italian market on a high-volume platform, triaging incidents against service targets under time pressure.
- Identified and implemented process improvements that raised throughput and data quality across the department.
